SETTLEMENT COMMUNICATION

As promised, attached is a report documenting certain costs incurred by EPA so far through the cooperative agreement with Idaho DEQ for remediation of RUA properties within the Wallace Yard and Spur Lines Site. As you will see, the costs documented in this report are directly attributable to UPRR or BNSF, and should be subject to the reimbursement for past costs through the consent decree for the Site. Once you have had an opportunity to review these costs, upon request, EPA and DEQ can arrange a call to discuss the factors and methodology going into these calculations.

At the same time, we are continuing our review of the draft SOW and hope to have comments to you on that by the end of this week.

Regards,

Cliff Villa
Assistant Regional Counsel
U.S. EPA Region 10
